The weather out in Missouri, Kansas and Nebraska has for some time been torrid and also horrid.

The Mobile *Register* wants Chinamen on our Southern plantations to show the negroes how to work. Might not that in the long run be swapping the devil for a witch?

There is a chance for some "benevolent assimilation" in Hawaii. The girls are anxious to marry Americans, and some of them are rich, too. Here's a chance, boys.

The last reports from Shanghai are that Prince Tuan, who declined the invitation to have his head chopped off, is putting on some war paint and that the Empress Dowager is casting goo-goo eyes at him.

It is an ill wind and an ill hot wave, too, that don't blow some good. The hot spell in London has brought some Londoners to the conclusion that they will have to use ice in their houses, and also American refrigerators.

Russia is going to put 50,000 soldiers in Manchuria "to protect her railroad," and Li Hung Chang has ordered the withdrawal of all Chinese soldiers from Manchuria "to avoid conflict." Sly old Li. This is doubtless in accordance with his deal with Russia, made some time ago.

A fine deposit of lithographic stone has been discovered in Kentucky. What is used in this country comes from Germany and costs from forty to fifty cents a pound. Mr. Leary, of the U. S. As stickers Mr. Dudley G. Wooten, of the Sixth Congressional district in Texas, and his friends take the cake. He was nominated for Congress Wednesday, after six days' balloting, on the 4,046th ballot, which will probably be about as many votes as he will get on the day of election.

Public baths are features of every Japanese town. There are 800 in Tokio, which are patronized by 300,000 people daily. The price charged is about a cent for grown persons and less for children. They believe that water is a good thing for other purposes than sailing ships, and putting out fires.

AT "CAMP AYCOCK."

Rain Was Disagreeable, But Didn't Interfere With the Regular Routine.

A PRIVATE COURT MARTIALED

Religious Exercises Announced for To-day. The Third Regiment Band's Excursion—General Notes Picked Up About the Grounds.

All the usual routine work at Camp Aycock was observed yesterday in spite of the drizzling rain which fell while the regimeut was on dress parade. The companies showed up very well and are now falling very rapidly into the regimental drill. Court-martial proceedings were held yesterday morning as is given in General Order No. 6, as follows:

Headquarters Third Regiment,
North Carolina State Guard,
Camp Aycock, July 13.

Proceedings of Court Martial:

Before a summary court martial, which convened at Camp Aycock this morning pursuant to verbal orders from commanding officer and of which Lieutenant Colonel J. N. Craig was President, was arraigned and tried Private Richards, Co. E.

Charge: Violation of 62nd article of war: Conduct unbecoming a soldier and to the prejudice of good order and dicipline.

Specifications—First, that the said Private Richards absented himself from his company on or about July 12th, 1901, without leave from the commanding officer, having been ordered to remain within his Company street.

Second, In that said Private Richards on or about July 12, was drunk and disorderly in the city of Wilmington and guilty of misconduct.

Pleas:—To the first specification, "guilty." To the second specification, "guilt."

Witnesses:—Captains Devin and Cheatham.

Sentence:—As said Private Richards plead "guilty" of the above charges, no witnesses for the State were examined, and the Judge sentenced said Private Richards to confinement and arrest for two days and during that time he is to perform police duty two hours each, from 2 to 4 o'clock, and that this police to be performed shall be at the discretion of the officer of the day The above is approved and published.

By order of
COLONEL HENRY PERRY.
McGhee, Captain and Adjutant.

Religious exercises will be observed in camp to day, as will be seen from the following order issued yesterday:

Headquarters Third Regiment,
North Carolina State Guard,
Camp Aycock, July 13.

Order No. 7:

There will be religious services in the pavilion in camp at 9:30 o'clock to morrow morning, 14th inst., conducted by the Chaplain of the Regiment, Rev. Alpheus McCullen.

By order of
COL. HENRY PERRY.
McGEHEE, Captain and Adjutant.

Some General Camp Notes.

Detail for to day: Officer of the day, Captain Devin, of Company E Senior officer of the guard Lieutenant Moore, of Compaay B. Junior officer of the day, Lieutenant Clark of Company G.

Major Bunch was very busy yesterday making up the pay roll of the laborers. He expects to leave this morning for Raleigh to get supplies for the Second Regiment, which will go into camp July 22nd.

There was a game of baseball yesterday morning between the Raleigh and Durham companies. Batteries for Raleigh: Candle and Ottar and for Durham Cook and Kates.

Colonel Cobb and Major White will have a target practice to morrow after noon.

Companies B and C had almost perfect fronts when passing in review at Dress Parade yesterday.

Major Jones, the regular commander of the Second Battalion has arrived and had command yesterday afternoon.

Lieutenant J. Van B. Metts visited the camp for dress parade yesterday.

Major Landis, Assistant Inspector General, is paying the camp a visit for a few days.

Major J. H. Harris is sick, though not seriously. Doctors Cheatham of Henderson and Brooks of Reidsville, the regimental surgeons, are looking after him.

The Burlington Company, which has not yet received its uniforms, will receive some Naval Reserve uniforms early in the week.

Lieutenant Gwyn, who was in the Spanish-American war as a First Lieutenant of Regulars, has helped very much to make the exercises at Camp Aycock a success.

Governor and Mrs. Aycock and children left Raleigh yesterday morning for Morehead City. Governor Aycock will be over Tuesday to review the troops. As soon as the review is completed it is stated that he will return to Morehead.

Rev. M H. Tuttle, of Henderson, is along with the "Vance Guards," of Henderson, which are under the able command of Capt. J. S. Poythress and Lieutenants W. K. Sturges and Geo. E Perry. Among other distinguished persons that the Henderson boys brought along with them were: Col. Henry Perry, Third Regiment; Rev. A. McCullen, Regimental Chaplain (rank of Captain); Dr. Goode Cheatham, assistant Regimental surgeon, (rank of Captain); Phil H. Thomas, Regimental Steward; Col. Francis A. Macon, Quartermaster General.

The "Granville Grays" from Oxford are in camp with spick and span new uniforms, which are very attractive. They were also accompanied to the beach by Dr. and Mrs. T. L. Booth, Rev. A. McCullen, Regimental Chaplain, Rev. J. S. Hardaway, Company Chaplain, and Rev. R. B. Owen.

It is learned that the Franklin Guards will be along with the First Regiment about the first of August. As stated in yesterday's paper many of the members of the company are engaged in agricultural pursuits and they found it very inconvenient to get off earlier.

The Third Regiment Band.

As the days go by the excellence of the Third Regiment Band, Reidsville, is more and more manifest. The official roster of the organization is as follows:

Cornets—J. Fred Tesh, Captain, R. J. Oliver, C. Z. Whitaker, E. P. Enoch, Will Yates and Jas. Thompson.

Tubas—Manton Oliver and C. L. Weiford.

Slide Trombones—C. L. Tesh, J. R. Blackwell, Fred Dock and W. E. Ellington.

Clarinets—Geo. Woodward, David James and C. A. Stephens.

Baritone—L. M. Sharp.

Altos—J. H. Morrison, J. D. Wall, G. Whitaker, A. W. Clark and J. M. Culbreth.

Tenor—Robert Paschal.

Drummers—James Windsor, R. T. Burton, Sam Jones. Cymbals, Herbert Morrison.

The boys are justly proud of their organization and are in perfect harmony not only as to their music playing but among themselves.

The Wilmington people will have an opportunity of hearing the band on next Wednesday, July 17th, upon the occasion of an excursion which they will give to Southport and ten miles to sea on the steamer *Wilmington*. The boat will leave her wharf at foot of Market street at 9:15 A. M., and returning will reach the city about 5 o'clock. The fare for the round trip is only 25 cents.

LOCAL DOTS.

— For other local see fourth page.

— The Diamond saloon, No. 6 South Front street, is for rent. See business local column.

— Mr. W. M. Cumming will be the speaker at the Y. M. C. A. men's meeting this afternoon.

— A good pony with perfect qualities is offered for sale by advertisement in the business local column of the STAR to-day.

— Communications, even when otherwise acceptable, receive no attention in the STAR office unless accompanied with a responsible name.

— Business of importance requires a full attendance upon the regular convocation of Concord Chapter No. 1, R. A. M., in the Masonic Temple to morrow night.

— The annual excursion of the Southside Baptist Sunday school to Carolina Beach will be given this year on Friday, July 19th. It will no doubt be liberally patronized.

— The second annual grand reunion of the Lutherans of the State will take place August 1st in the Lutheran Chapel grove near China Grove, N. C. An interesting programme is being arranged.

— The Board of Aldermen will meet in special session Monday afternoon at 3 o'clock to formally receive the James Walker Memorial Hospital from Messrs. James Sprunt and Wm. Gilchrist, executors of the will of the late James Walker.

— George Allen Wright, a colored laborer, for a long time employed by Mr. D. Hanns, the contractor, died Thursday and was buried yesterday afternoon at Scott's Hill. He was one of Mr. Hanna's best workmen, and was highly valued by him.

New Hanover Superior Court.

The July term of the New Hanover Superior Court for the trial of criminal cases only, expired last midnight by limitation. Judge Allen convened the court as usual yesterday morning but aside from entertaining several motions in regard to civil cases, there was nothing of interest in the proceedings. The judgment heretofore rendered in the case of John Mitchell, for an assault with a deadly weapon upon John Jacobs, was stricken out and defendant paid the cost and a fine of $30. In the civil case of Cotton vs. Moore, notice of appointment of a referee was given and notice was accepted to be heard at the August term, which will convene August 12th.

Brought to Hospital Here.

Henry Kermon, the young man who shot and it was thought fatally wounded himself in a fit of madness at Phoenix, N. C., was brought to the City Hospital yesterday and the bullet taken from his breast by the hospital surgeons. At 2 o'clock this morning he was resting well and hope is entertained that he will recover.

It was one that tried men's souls.

For six long innings not a man could be sent across the rubber by either team and 600 anxious rooters and rooterinas sat nervously under the canopy of heaven and the grand stand cover and with bated breath whispered to one another, "When will they score."

Willig, the new pitcher for the Giants, made his initial appearance on the home grounds and left a decidedly favorable impression He was a trifle wild at times but will steady down when he gets fully into the game. Bass did the slab honors for the Hornets and neither twirler yielded but a single hit up to the seventh inning. Then the locals jumped on the visiting artist and pounded him—not "unmercifully" as the stereotyped phrase would have us to remark, but liberally to say the least of it. In that inning and in the eighth he handed up six more singles while three was the best that Willig would afford.

A pass to Weaver, his force out at second by Bigbie, a foul and out by Swander, an out, pitcher to first by Murray was the debut of the Hornets and Wilmington got Clayton safe on Bass' error, and sacrificed him by Cranston. Devlin was safe on Hooker's error but with the bases full the best that Warren and Sebring could do was to go out, fly to right and third to first.

In the second Knau was out, pitch to first; Hooker flew out to centre and Clark to left. Thackara was safe for the Giants on Bass' error, but lack of coaching allowed him to die going to third. McGinnis out, second to first; Frost to Clark.

The third had a fan out for Gates; a pass for Bigbie, a single for Weaver and a force-out for the same by Bigbie with a fly out to right on a phenomenal catch by Cranston for Swander. The locals went out, Willig to second; Clayton on a fan and Cranston force out by Devlin at second after he was safe on "Hook's" error.

In the fourth Murray was out to short; Knau, third to first, Clark to left; Hooker having been safe on excusable error of Frost. Warren, out to right; Sebring to second and Thackara to short.

In the fifth Gates was out, short to first; Bass to third and Bigbie to short, Weaver having walked. McGinnis for the Champions popped out to short; Frost got a single, Willig to pitcher, out at first; Clayton flew out to right.

In the sixth, Swander drove out to Devlin; Murray and Knau beat the atmosphere. Cranston flew out to centre; Devlin and Warren to left.

The seventh brought more "fans" for Hooker and Gates, a single by Clark and a fly-out by Bass to left. The Giants then got strictly in the game, Sebring lined out and was sacrificed by Thackara, while McGinnis, next up, was safe at first and Sebring crossed the rubber on Hooker's 'steenth error. Frost followed with a single and "Mack" was thrown out (?) at home on Willig's hit to short. Clayton stopped the run-getting machine by flying out to centre.

In the eighth, Stewart relieved McGinnis at centre, on account of the sickness of the latter and Weaver got a single, Bigbie was hit and the two were sacrificed by Swander and on Murray's fly-out to right, Weaver made the only one score for the visitors. Knau was out to short. Two more runs were produced by the locals at their turn with the willow and a single by Cranston, a sacrifice by Devlin, singles by Warren and Sebring upon which Cranston scored and a subsequent beautiful single by Stewart, upon which Sebring raced across the rubber after "Thack" had forced Warren at second. Frost flew out to left.

A last effort by the Hornets in the ninth consisted of a fly-out by Hooker to second, a single by Clark, a fan by Gates and a pop-out to pitcher by Bass.

Not a Run Made Until Seventh Inning.

— It was a very interesting game.

— The attendance was exceedingly large.

— Deerfoot "burned the wind" again yesterday.

— Every player was on his good behavior. Kicking is a lost art in Wilmington.

— The man behind the bat, like "the man behind the gun," occupies the position of danger.

— Not a run was made until the seventh inning, when Wilmington started in to win.

— Harry Mace is a past master of umpiring. He is the best ever seen on the Wilmington diamond.

— Willig is another good one from Williamsport which is so well represented on the Wilmington team.

— There are now two deferred games between Wilmington and Charlotte. One will probably be played at each place.

— It was a prime day for the cushion vender. The rains had exerted an evil influence on the seats, even in the grand stand.

— Frost improves with acquaintance. He is a good all-around player. Crockett made no mistake in recommending him.

— The Giants play three games in Tarboro and the Turtles play three games here this week. The former leave here this morning.

— "Cold drinks, cigars, cigarettes, chewing gum," is the plaintive ditty that is sung at intervals of three minutes. It is very inspiring.

— The successful chase of a long fly to right field by Reddy Cranston, making it necessary for him to run under the rail near the gate, elicited a storm of applause.

— The grounds were too wet for the first game scheduled. The miniature lakes had to be baled out and other work done to prepare the diamond for the 4.30 game.

— If the present excitement over the voting contests does not wane it is probable that one hundred dollars will be realized from this feature of the lawn party alone.

— Remember the dates for the lawn party, next Thursday and Friday nights. The Raleigh team will be here to enjoy the occasion with the Wilmington boys.

— No better man for President of the North Carolina Baseball League could have been found in the State than Mr. Sherwood Higgs, of Raleigh. He subordinates the ornamental to the useful.

— Dannehower's pitching for New Orleans, at Birmingham Friday, was of the sensational nature and the Pelicans are wild over him. He yielded but five hits and won his game. Stafford got two hits in the same game out of four times up.

— The following press dispatch was received last night:

RALEIGH, N. C., July 13—No game between Tarboro and Raleigh here today on account of rain. Tarboro has signed Kemmer for first base. Kelly goes North to secure a short stop for Raleigh.

— Umpire Harry Mace, who has been with us for this series, has given universal satisfaction and made it possible for Wilmington to have perfectly clean ball. He leaves this morning for Raleigh but will return the last part of this week for the games here. Umpire Fleming will officiate at Tarboro.

— The horse editor mysteriously disappeared this morning. There is a suspicion that he has gone West again, but not *via* the K. S. Until he returns his duties as V. P. will be discharged by Nixon Davis, Ed. Battle, and the rollicking religious reporter of the STAR. They know just as much about a base on balls, a shet-out, a balk and a block as he does.

THE BASEBALL BAZAAR.

Meeting of All Ladies Interested at Elks' Temple Monday Afternoon—Cake Won by Mr. Davis.

The ladies who so successfully managed the baseball fete at the W. L. I. armory night before last have now turned all their attention to the bazaar sor Thursday and Friday nights of this week and a greater success than ever is assured.

It was found yesterday that the net proceeds of the event Friday night were something like $60 instead of $40 as published heretofore. A handsome cake donated by Mrs. Jos. H. McRee was contested for at the store of the Johnson Dry Goods Company yesterday afternoon and was won by Mr. N. N. Davis.

A meeting of the ladies who are arranging for the Bazaar will be held at the Elks' Temple to-morrow afternoon at 5:30 o'clock and a full attendance is desired.

In regard to the tickets for the Bazaar Thursday night, it is well to state for the benefit of the public that under the arrangement with the Street Railway Company the Baseball Association will get nineteen cents out of every twenty-five cents; that is, fifteen cents for admission and a chance on season tickets and 40 per cent. of the fare each way. The use of the grounds, lights, fans and cost of dancing pavilion are given free of charge.

THE BOYS' BRIGADE.

First Battalion Broke Camp at Southport and Returned to the City.

A VERY PLEASANT OUTING.

Boys Are Grateful to Southport People for Many Courtesies Shown—A Description of the Grounds and Pleasures of the Week.

The First Battalion, North Carolina Boy's Brigade, broke camp at Southport yesterday morning and came up to the city in the afternoon. The boys marched from the steamer to their armory and after a few words from Col. Walker Taylor, the genial "manager" of the Brigade, the boys retired to their respective homes after a delightful outing.

The following official report of the proceedings in camp will be read with interest and pleasure:

CAMP "LANE," SOUTHPORT, July 13.

TO THE STAR—On July 3d the First Battalion, North Carolina Boys' Brigade, went into camp at Southport, for a stay of ten days, likewise nights.

Heretofore we have had correspondents for all of the papers to report each day's doings in detail, and perhaps we were expected to have them this time, but none of us could spare the time we would wish, so this article will take the place of daily reports.

The Batalion is composed of Company A, commanded by Capt. J. A. Price, with Jos. B. Linder, First Sergeant; J. S. Brittian, Second Sergeant; Malcom M. Parker, First Corporal, and H. A. Kure Jr., Second Corporal, and Company B commanded by Capt. J. William Curtis, with Harry O. Thomas, First Sergeant; H. E. Jordan, Second Sergeant; A. L. Burrus, First Corporal and S. F. Garrison, Second Corporal. Each Company has about 15 privates.

The Staff is as follows: Colonel Walker Taylor, "Manager;" J. J. Loughlin, Major Commanding; Jno. W. Brown, Adjutant; Jas. W. Orrell, Sergeant Major and Jas. M. Hall Surgeon.

The tents are pitched on the north side of the Garrison, the beauty spot of Southport, with the company streets running east and west. The drill grounds are about twenty-five yards from the camp, covering about four acres of level, grassy land.

Arriving about 12 o'clock Wednesday, we consumed the balance of the day in getting the camp in order. "The Fourth" was a great day in the history of Southport, an account of which has already appeared in this paper. We were asked to lead the grand parade, but on account of our ignorance of the plan of the city and the names of the streets, Colonel asked that the band be given first place. The parade was a success from start to finish. We had dress parade late in the afternoon before a crowd of not less than 2,000 people.

The succeeding days, each accompanied by a night of pleasure on the garrison with the lovely girls of Southport, passed by on wings of the wind, regardless of the inclement weather, until now the last day of our fourth encampment presents itself to us with all of its sorrow and sadness. Even the elements are in sympathy with us, for while this is being written the sky is weeping for all it is worth.

Before closing it becomes us to mention the treatment we have received at the hands of the people of Southport, especially the girls. The favors, attention and kindness shown us, and their endeavors to make our stay as pleasant as possible, could not be bettered anywhere.

Hip! Hip!! Hurrah!!! Three cheers for Southport! The same for the Boys' Brigade!! And a tiger for the girls!!!

Funeral of Mr. P. Donlan.

The funeral of the late Mr. P. Donlan was conducted yesterday morning at 10 o'clock from St. Thomas' Procathedral in the presence of a large number of friends. The interment was in Oakdale cemetery and the following were pall bearers: Honorary, Messrs. H. G. Smallbones, J. W. Reilly, Thos. Darby and D. O'Connor; active, Messrs. M. O'Brien, Thos. Torpy, J. H. Sweeney, W. H. Sprunt, Clayton Giles, Jr., and J. C. Higgins.

County Real Estate.

The following record of real estate transfers were filed yesterday at the Court House: Robert N. Harriss to George Harriss for $115., his undivided one-seventh interest in a tract of land between the northeast and southeast prongs of Bradley's Creek and in an adjoining tract lying and being on both sides of Clear Run branch. George Harriss and wife to Frank Herbst, a part of the "Sanders Point Place" in Harnett township containing 75 acres more or less.

"Unknown" Factory Sold.

Lyman S. Catlin, of Bridgeport, Conn., yesterday transferred by deed to Will Craft, of New York, for $100 and other valuable considerations, the Imperial Pine Product Company's factory on Smith's Creek, near "Little Bridge," and once a portion of the "Sans Souci" plantation."

Death of Mr. Walter Silvy.

The STAR chronicles the death of Mr. Walter Silvy, one of Wilmington's esteemed citizens, which occurred yesterday morning. Particulars of the death are included in the formal obituary notice published elsewhere.

— Lieutenant Johnson, son of Mr. "Jack" Johnson, a prominent citizen of Winnabow, Brunswick county, reached home last evening from the Philippines via San Francisco, where he was recently mustered out of the U. S. A. service. He was cordially received.

Baseball at Delgado.

An interesting game of baseball between the teams of East Wilmington and Delgado, was played at Delgado yesterday afternoon, the former aggregation having been victorious in a score of 8 to 5. The battery for the winning team was Green and Mills, while that for Delgado was Farrow and Wood. Only 7 hits were given by Green and the game was interesting throughout.

DIED.

SILVY—In this city, on the 13th instant, JOSEPH SILVY, aged 68 years. Born in Portugal in 1833, at the age of sixteen years he emigrated to America, settling in Charleston, S. C., where he married Miss Maria Nagle, who, with two sons and three daughters, survive him. Forty years ago he removed to this city, where he has continuously followed his calling, as contractor and builder, until his death. In his business relations he was universally recognized as unimpeachable and just, in his family connections most loving and generous, as a citizen ever loyal and true, as a Christian he bore himself with that humility and faithfulness which so adorn the Gospel of Jesus Christ. The community has lost a valuable citizen, his family a dear and self sacrificing head, St. John's Church an honored and Godly member.

The funeral will be held this (Sunday) afternoon at 4 o'clock from his late residence, 620 Harnett street. Friends are invited to attend.

BY WILLIAM H. BERNARD

WILMINGTON, N. C.

SUNDAY MORNING, JULY 14.

IN THE END IT MEANS FEUDALISM.

In discussing the Trust question the discussion has turned mainly upon the effect the trusts will have on the prices of articles controlled by them, the prices they may charge for what they sell and the prices they will pay for what they buy. The successful Trust, that is, the one that succeeds in preventing competition, will have a practical monopoly of the market not only on what it sells but on what it buys, for having no competition it can make its own selling and buying prices and the man who wants to buy what the Trust has to sell, or the man who wants to sell what it wants to buy must be governed by its prices for he can't help himself. This was the case when there were numerous Trusts each interested in one line of goods, but it is much more the case when these Trusts consolidate, go under one management and the management controls a great many articles.

As an illustration, we have the combination known as the United States Steel Company, with an alleged capital of $1,000,000,000. It controls about everything in the line of iron and steel manufactures, with iron mines, coal mines, ships to carry the iron from its mines on the Lakes and railways to transport its coal to its furnaces and its manufactures to their destination. Since then another great combine has been formed with an alleged capital of $100,000,000, composed of the leading manufactories making agricultural machinery—reapers, mowers, thresher, plows, cultivators, etc., covering the whole range of farm machinery or implements. Such a combine as the Steel company can, of course, put its own price upon its manufactures and the buyer must pay it, because the protective tariff practically closes our ports against the manufacturers of other countries and there can be no competition from abroad. This agricultural machinery combine can make its own prices, and lay tribute on every farmer in the country because the protective tariff gives it a monopoly, too, and prevents competition, even if this machinery were produced in other countries. It so happens that this country has the prestige and the run on this kind of work, and the manufacturers have not only a good home market but a fine and growing market in other countries.

With a practical monopoly of the home market before, although there might have been some competition between the several manufacturers which kept prices from becoming exorbitant, with this combine the monopoly will be absolute and it can make its own prices.

What is true of these two combines is true of all. The system if carried out and made permanent means the control of all the great manufacturing and productive industries, by a comparatively small number of men, and this means more to the American people than the matter of prices, which is a very serious one, especially to the wage-earner, who is dependent upon his day's labor for his daily bread.

It means that these combines will not only have the power to levy tribute upon the American people, but it means that they will have absolute control of the wage-earners employed in the respective industries controlled by the. Trusts now control nearly every industry in this country which employs skilled labor and some that do not, so it might be said that nearly all the labor of the country not employed on the farm, or in non-productive callings, is in the employ of Trusts and controlled by them.

This presents a serious problem for the present and the future, more serious for the future than the present unless the Trusts are scotched. Before these Trusts were formed there were many employers, and if a workman was dissatisfied with his place of work he could quit and get work somewhere else. If he failed to give satisfaction and was discharged he could go to another employer and apply for work. He was not dependent upon one employer and consequently did not feel the necessity of keeping in the the good graces of that one, and implicitly obeying orders whether he liked them or not. With but one employer to give him work his independence is practically gone and he must meet the requirements or lose his job, and that will mean that he cannot get another job in that line of business. He will be blacklisted and all the shops in that combine will be closed against him, and all he can do, if he doesn't wish to steal or starve, will be to turn tramp, hunt some other kind of job or learn some other kind of business.

Whether this will be the outcome of Trust organizations remains to be seen. It will be if the Trust system becomes permanent and the labor organizations do not become so strong that they may challenge the Trusts before they become too thoroughly ramified and too powerful to oppose; but however this may be the tendency of the Trust is to degrade labor and reduce it eventually to the condition of serfdom. The first contest with the Steel Trust is on now. What the future may be for the workman may depend very much on the outcome of this contest. If labor wins it may be treated with respectful consideration; if the Steel Trust wins its rule will be imperious, and the men in its employ will not dare to express an opinion if they dare to have one.

ILLINOIS BOXERS.

We do not know what the sect known as Dowieites believe in, but they do not seem to be in high favor in the section of Illinois where they are the most numerous, although they attract a good deal of attention and are greeted with more or less demonstration wherever they hold forth.

A few days ago they had a meeting on one of the streets of Evanston. It seems they anticipated a demonstration of some sort and brought a guard with them to protect the men and women participating in the meeting. They were speedily surrounded by about 1500 Boxers, and when one of the elders mounted a camp stool to preach he was saluted with a shower of eggs of ancient date, decayed fruit, vegetables, etc. But the men and women who accompanied him prayed and sang while the eggs, fruit and vegetables added variety to the performance.

The Boxers began to crowd the prayers and singers, and fearing "a riot" the Mayor ordered a fire engine out and it played for all it was worth on that crowd, making a special target of the Dowieites who, notwithstanding the drenching, continued to pray and sing. And then the police came along and arrested three or four of the principal Dowieites, but none of the Boxers.

It does not appear that the Dowieites struck anybody or retaliated in anyway, but the leaders were arrested and the preaching elder was held on a charge of "inciting a riot." Here is what the Boxers did to the prisoners while being escorted to the station by the police, as told by wire:

"As the squad of police with their prisoners walked down the street toward the police station a block away a portion of the mob threw stagnant water upon Piper and three of his lieutenants by means of squirt guns. The men were also struck by acids which burned their clothing. During this time many eggs struck Piper and having been drenched with water he was in a deplorable condition.

"At last the station was reached. A number of other Dowieites were arrested and taken to the court room of the Evanston station. Piper was charged with disorderly conduct and inciting a riot. It is probable the others will be released."

Stagnant water and acids squirted on prisoners in charge of police, prisoners whose only offense was preaching something the Boxers didn't like and praying and singing on the streets. Were any of these acid squirting Boxers arrested? If so, or if any attempt was made to arrest them or protect these prisoners the dispatches do not mention it. And all this was in a suburb, not of Pekin, but of the American city, Chicago.

We think Dowie, who poses in the role of Elijah, is an arrant fraud and that his followers are deluded innocents, but as far as we know they are not accused of any immoral or lawless teaching and therefore ought not be subjected to such persecution by American Boxers with the assent and connivance of the municipal authorities. Such conduct is more disgraceful to an American community than the outrages by the Chinese Boxers were to the Chinese communities in which they were perpetrated.

OBJECT LESSONS FOR THE FARMERS.

In urging the importance of diversified farming in the South and the raising of all the food stuffs needed on the farm, we have frequently referred to the danger of trusting to one crop, no matter what it is, and to the uncertainties that beset the farmer from the time he plants to the time sells. This year we have, by way of illustration, some striking object lessons bearing both upon the diversification of crops and the uncertainties we speak of.

This has been a year of set-backs to the Southern farmer, because early in the season excessive rains retarded the growth generally, choking up the crops in grass, while in some sections they caused floods which destroyed the crops that were growing. Now the excessive warm weather and droughts in some sections threaten to injure the crops seriously. With all this there have been frequent storms and falls of hail that did much damage to fruit, berries, vegetables, &c.

In the West the indications a few weeks ago were for immense crops of wheat, corn, oats, hay, &c. The wheat was barely harvested before the intense heat came, accompanied by a drought which has about ruined the hay and corn crops in a large area of the West and Southwest, in some portions of which the farmers are now feeding wheat to their stock for want of corn and oats. This is the section on which Southern farmers who import their hay and corn and meat mainly depend.

This shortage, of course, will run prices up and the Southern farmer, with short crops himself, will be compelled to pay these higher prices for the stuff he buys. Lucky is the man who, acting sensibly, has raised his own supplies and thus will not suffer from this Western shortage.

According to a recent decision of a Minnesota court it is an inalienable right of a citizen of that commonwealth or of a sojourner therein to shoot a gambler who wins his money by cheating and refuses to refund. A Dr. who did that was acquitted. The effect of this ought to be to increase the shooting or diminish the cheating.

An excange speaking of a compliment paid by the German Minister in Pekin to an American officer, in which he referred to the officer as "an American subject," remarks that we have "citizens" not "subjects" in this country. But ain't we getting a pretty large assortment of "subjects" with our new acquisitions?

—— Ambassador Choate must be playing for his recall. In his Fourth of July speech he gave Providence a portion of the credit for our prosperity.—*Atlanta Journal, Dem.*

—— China is not stuck up. She is not ambitious to be one of the powers to go about the world shooting religion into the people and looting things to pay for it.—*Newport News Herald, Dem.*

—— Secretary Gage's wisdom in putting a punitive duty on Russian petroleum was like the wisdom of throwing Br'er Rabbit in the briarpatch to kill him. No Russian petroleum comes to this country.—*Norfolk Landmark, Dem.*

—— Senator McLaurin may well come to the conclusion that it is hard to please everybody. He will also discover, if he lives long enough, that a mixture of politics and religion is very likely to suffer in the compound, and that the safest thing for a politician to do is to "shinny on his own side of the fence."—*Atlanta Constitution, Dem.*

—— The French have the best submarine torpedo boats. One of them, in naval exercise, the Gustave Zede, had startling success. We learn that the officers and crews of all the warships in the harbor of Ajaccio were on the alert, nevertheless the Zede sneaked in and attached a dummy torpedo firmly to the bottom of the biggest warship there and escaped without being detected. In case of war between France and England, the French torpedo fleet may stagger British humanity in an unprecedented naval fashion.—*Augusta Chronicle, Dem.*

Glorious News

Comes from Dr. D. B. Cargile, of Washita, I. T. He writes: "Four bottles of Electric Bitters has cured Mrs. Brewer of scrofula, which had caused her great suffering for years. Terrible sores would break out on her head and face, and the best doctors could give no help; but her cure is complete and her health is excellent." This shows what thousands have proved,—that Electric Bitters is the best blood purifier known. It's the supreme remedy for eczema, tetter, salt rheum, ulcers, boils and running sores. It stimulates liver, kidneys and bowels, expels poisons, helps digestion, builds up the strength. Only 50 cents. Sold by R. R. BELLAMY, druggist. Guaranteed. †

For Over Fifty Years

MRS. WINSLOW'S SOOTHING SYRUP has been used for over fifty years by millions of mothers for their children while teething with perfect success. It soothes the child, soften the gums, and allays all pain; cures wind colic, and is the best remedy for diarrhœa. It will relieve the poor little sufferer immediately. Sold by druggists in every part of the world. Twenty-five cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind. †

FLORENCE, S. C., Nov. 26, 1900.

I was first advised by our family physician in Charleston to use TEETHINA with our baby when she was but a very young infant, as a preventive of colic and to warm and sweeten the stomach. Later it was useful in teething troubles, and its effect has been found to be so very beneficial and so free from the dangers that are consequent upon the use of drugs and soothing syrups, that we have come to regard it, after use with three children, as one of the necessities when there is a new baby in the house and until the teething troubles are over, and we take pleasure in recommending it to our friends instead of the horrid stuff that so many people use to keep their babies quiet.

SPIRITS TURPENTINE.

— Wilson *Times*: Last Monday the little grandson of Mr. Wm. Taylor found in his grandfather's horse lot, a young alligator about one foot long. Not being used to such, young Taylor killed the reptile and then sought his grandfather to come and see what it was. Many guesses have been hazarded as to where this young alligator came from.

— Concord *Tribune*: Thursday Dr. R. S. Young was called to amputate Mr. William Flott's thumb that had been mashed at the Cannon mills, and while the operation was going on water was up set on a case of eighteen needles. These were placed on a piece of paper and put in the sun to dry to prevent them from rusting, when a goat came along and ate needles, paper and all. This morning from all appearances the goat does not need the medicine man.

— Fayetteville *Observer*: The crop news from different parts of Cumberland county and other districts of the upper Cape Fear section are not favorable as to corn and cotton. June was a bad month for both, and it has been impossible to recover lost ground. A citizen of Fayetteville informed the *Observer* reporter yesterday that in a long ride in the country, going and returning by different roads, he passed many farms, on all of which the outlook was discouraging.

— Durham *Herald*: Two cents was the cause of a murder in Person county late Wednesday afternoon. From the best information obtainable yesterday it seems that two negro boys, about 12 and 14 years of age and first cousins, had some words about two cents and the younger one lost his life. The murdered boy was found close to the track of the Norfolk & Western road last Wednesday afternoon in a dying condition. He did not recover consciousness and died a short while after being found. There was a wound on the side of the head and other small wound on his shoulder, both apparently having been made with a small stick. Blood was running from his ears.

— Sanford *Express*: Crops are very small for the time of year and the prospects are anything but encouraging. —— Mr. Hugh Jackson, of Gilbert, was in town Saturday and told the *Express* that the chinch bug had made its appearance in his section. This insect is very destructive to corn and other grain crops. —— There seems to be an epidemic of mad dogs in some sections of the county. A number of dogs supposed to have been suffering from hydrophobia have been killed during the past few days, but not until after some of them had bitten other dogs. —— Major W. C. Petty says nothing will be done for the present in the way of extending his road to Greensboro, as rails are so high. Four months ago 40-pound rails were worth $24 a ton; now they are $35. He says the Trust put up the price.

— Tarboro *Southerner*: Superintendent Mann, of the penitentiary, says there are now 840 convicts. The female convicts are to be employed in the laundry, in making clothes for the convicts and in the prison garden, which is a large and fine one. —— Hog cholera has been prevalent in the section of the county near Epworth. Adrian Harper is reported to have lost about thirty hogs. Several of his neighbors have lost heavily from this epidemic. —— Tuesday night those who observed the eastern and southeastern heavens beheld a grand sight. What appeared to be a huge, rapidly moving star was first seen, brilliantly white and as large as a hat. As it swept in a southerly direction it grew in size and brilliancy, till it disappeared below the horizon as large as an average door. Those who beheld it say that the heavens were lit up and the whole night was bright.

— Wadesboro *Messenger-Intelligence*: Last Sunday Jess Sturdivant, a young colored man who lives near Polkton, was visiting at the home of the mother of Cole Biles, who lives on Mr. M. A. Polk's place, also near Polkton. Jess was "flying around" Cole's sister and was on familiar terms with the family. He asked Cole to hand him a drink of water, and when she did so he took a mouthful and deliberately spit it in her face. Cole then seized the dipper and filled it and retaliated by dashing its contents on him. This greatly enraged Jess and he immediately drew his pistol and shot the woman, the ball taking effect in the fleshy part of her thigh, inflicting a painful, though not serious, wound. Sturdivant was arrested Tuesday and brought to Wadesboro, and was released by Esq. I. H. Horton on a $100 justified bond for his appearance before him Monday morning.

Tit For Tat.

The diners at a popular New York restaurant are said to have had the privilege of witnessing an amusing little incident one evening not long ago.

An Anglicized young man seated himself at a table at which there was only one other person, a writer well known throughout the country, but evidently a stranger to the newcomer.

The writer is a man whose dress is always fastidiously neat, but by no means fashionable in cut or expensive in material. When the young man took his seat, the writer glanced up at him and, seeing that it was no one whom he knew, returned to his study of the bill of fare.

The young man languidly placed his monocle in his eye, and, screwing up his face to keep the glass in position, treated the other guest at the table to a prolonged stare.

The stare ended abruptly, however, for suddenly the writer looked up. Quick as thought he seized an empty tumbler and, applying it to his right eye, stared gravely through its bottom at his vis-a-vis.

The monocle was dropped in a very few seconds, and then the tumbler was replaced on the table. But the young Anglomaniac's face was crimson, while that of the writer remained grave and unmoved, and through the dining room rustled the sound of something that suggested repressed merriment.

IF YOU COULD KNOW.

If you could know the half of all I yearn to be to you, Dear Heart!
Each day that dawns I struggle to be strong and do my part;
Yet when at last night comes softly down, I humbly pray—
Lord, grant me still to prove my tender love, just one more day.

Just one more day to strive to rise above small troubles, petty care,
That my cramped soul may break its earth fogged bonds, at last to dare
To face the future and to gladly live with courage new,
Loyal and cheerful facing toward the light for truth and you.

And yet I feel in spite of all the heights which I can never scale,
In spite of all the many tests in which I daily fail,
That my deep love, more deep and pure and strong than I can ever show,
You somehow, through my failures, doubts and fears, will come to know.

The dreary clouds can't hide the sun for aye, it glimmers through;
The sweet, wet violet, struggling through dead leaves, still shows its blue.
And so I trust, though oft I strike love's chord with clumsy hand,
You feel the melody I tried to play, and understand.

The Telegram Came.

Bingo—Has a telegram come for me?

Mrs. Bingo—Have you been expecting one?

Bingo—Oh, no; of course not. (Sarcastically) You don't suppose I would ask you that question if I expected one, do you?

Mrs. Bingo (sweetly)—You might, dear. What would you say now if I should say that a telegram has come for you?

Bingo—Aha! I knew it. I've been expecting that telegram all the afternoon. (Impatiently) Where is it?

Mrs. Bingo—I'll get it. But, dear, I thought it best to open it. You didn't mind, did you, dearest?

Bingo—Certainly not. It's only a matter of business. From Jack Enslow, isn't it?

Mrs. Bingo—Yes, dear.

Bingo—Important meeting tonight. Says I must be there, doesn't he?

Mrs. Bingo—Yes, dear.

Bingo (rubbing his hands)—I knew it. Well, I'll have to rush off after dinner. Sorry for you, my dear, but, you know, business must be attended to.

Mrs. Bingo—Oh, that's all right, darling. But don't you want to see the message?

Bingo—Why should I? You opened it like a good wife that you are, and of course I can trust you. Jack wants me (delightedly), that's all, and I must go.

Mrs. Bingo—But there was one thing more he said, my pet.

Bingo (suspiciously)—Oh, there was. Well, what was it?

Mrs. Bingo (all smiles)—He says he's got front row seats.—Pearson's.

COTTON MARKETS.

By Telegraph to the Morning Star.

NEW YORK, July 13.—The cotton market opened firm, with near months two to three points lower and far months unchanged to four points higher on a bad scare of shorts, which grew into a veritable stampede soon after the call. Large New Orleans buying orders and brisk commission house buying, with some bull trade for European account swelled the demand on which August jumped up to 7.79 and January to 7.80. Trade for a time was tremendously active, with excitement at fever heat. Strange to say, July was apathetic and unresponsive through it all. By 10.30 o'clock the worst of the scare seemed over and a turn for profits was made. Yet the market held firm and prices reacted but little. Sentiment was bullish through and through on firm Liverpool cables, a bullish review of the week by the *Chronicle*, an abundant stock of drouth reports from the central and western belt, talk of eight cents for October next week, higher prices for spot cotton South and fair weather forecasts for the entire central and western belt over Sunday. The near months in New Orleans were emphatically strong with August 24 points over the same options here. Receipts at the ports were very light. The market for futures closed steady with prices net four points lower on July and six to eight points higher on later months.

THE CLUBS AND LOVE

CHICAGO CLUBWOMEN DENY CHARGE MADE BY HALLIE RIVES.

Keep Affection For Husbands While Picking Up Intellectuality Along the Way—Miss Rives Mistakes Sentimentality For Love.

Chicago clubwomen vehemently refute the assertion of Hallie Erminie Rives, the novelist, that Chicago women's interest in club life is destroying their domestic love and filling the divorce courts. In answer to her charge the women want to know what Miss Rives knows about love. Dr. Julia Holmes Smith says Miss Rives' views are "the expressions of immaturity" and questions the authoress' right to pass upon the emotional side of clubwomen. Moreover, Chicago women say the demands of club life prevent "idle marriages." "As for real love," says Mrs. Caroline K. Sherman, "no influence on earth can swerve it."

Expressions from Miss Rives which received the heartiest denunciation from the women were based on her exclamation, "Imagine the sensations of a Chicago clubwoman who happens to be kissed!"

"I don't think Miss Rives knows what she is talking about. Most clubwomen of Chicago are already married, and as love and kissing are essential to marriage she is evidently on the wrong tack," said Dr. Frances Dickinson, head of the Harvey Medical college. "I was in club life from 1886 to 1894, and in all that time no one ever asked me to indorse her application who was not already a married woman, and I don't know of a divorce among clubwomen of Chicago.

"If the statement be true that woman insists upon surpassing man and leading him, whose is the fault? Doesn't he tell her when he proposes that he will be her slave? Doesn't he say he is willing to devote his whole life to her happiness? If he is not in earnest, what is woman to believe, and what is she to do about it? That is the time of all others a woman expects a man to be truthful, earnest and honest. It is the man's fault if the woman is not contented. He should not make such promises if he does not expect his life companion to hold him to them. Show me the women's club that is a retreat for divorced women. If it were not for the women's clubs, the probabilities are that many women wouldn't have the cultivated wit to withstand some of the unexpected occurrences of married life so as to make it even tolerable."

Dr. Julia Holmes Smith had the following to say: "The young woman must be extremely young to talk in this way. I think it is the expression of immaturity. It seems to me, in the first place, the young person knows very little of life, less about women and nothing at all about men. An estimate given by a tyro of any institution is necessarily brimful of ignorance, and certainly in this case of some conceit, because the young person sits in judgment, not upon her peers, but upon those who have had long experience of life, for the clubwoman of Chicago, as of other cities, is no immature girl, but in 90 cases out of 100 is a woman rich in experience of life in all its phases—the experience which goes to make up a perfect woman, that of sweetheart, wife and mother. In my judgment the number of divorced women would be found to be much fewer among clubwomen than among those whose ideals of life are bounded by desire for charming environment, extravagant living and sentimental devotion.

"It is an impertinence to assume that Chicago clubwomen are so intelligent they are beyond love, and also a grave insult to a pure woman that she goes through a cataclysm of love in her teens and before she has reached the age of 20 experiences of the heart that men do not know until they are much older. My experience with young women goes to show that before 20 their experience is with books and with music. While they may be good chums with the boys, genuine passion is the exception. That women's clubs are the means of eliminating love from the feminine temperament is absolutely unworthy of discussion. I would like to see this young woman when she has really grown up and attained the measure of the perfect woman, nobly planned, 'to warn, to comfort and command,' and not to analyze her sensations when being kissed."

Mrs. Lucy Flower, former member of the board of education, said: "You don't hear of as many scandals as you used to. Women's clubs have helped to prevent them. The right sort of a club is making the woman broader. This talk of the club alienating the woman's affections from her husband is all tommyrot. Modern conveniences give the woman more time than she used to have. It is not indolence that makes her idle. When I was young, we used to have to make our own yeast, soap and bluing. A woman would be a fool to spend her time doing these things now. I believe clubs increase marriages. They prevent some loveless marriages perhaps. If a woman had nothing to do, she might be tempted to marry to provide herself with occupation."

"Before the women's clubs came into existence the tendency of women was to be more spiritual and emotional than intellectual," said Mrs. Caroline K. Sherman, member of the board of education. "The mission of club life should be to equalize these qualities. Perhaps the effort of some clubwomen to change their social life all at once has caused them to appear more masculine than they should be. When the clubs induce women to become less womanly than they were, then they are a dangerous institution. It is nonsense to say that the interests of club life are likely to deprive women of the power of loving. Love is a quality which no influence can swerve."

Miss Margaret A. Haley, actuary of the Teachers' Federation, said: "What's good for the gander is good for the goose. If clubs are good for men, they are also good for women. As far as the effect of clubs on love is concerned, it is my belief that women have too much sentiment already. Love does not do any harm in the world, but sentiment does, and if the woman's club results in extricating soft heartedness from women it is doing a good thing. Clubs have a wholesome effect, but no woman should belong to more than seven clubs."

Miss Catherine Goggin, president of the Teachers' Federation, said: "The mistake of most people is that they think sentimentality is love. Many times women marry on sentimentality instead of love. If the clubs can teach women what is right, they will be doing a good thing. It's a good thing, too, that all women do not get married. There aren't enough good men to go around."—Chicago News.

Food of the Right Kind.

The food that a child consumes has to provide for more than a continuance of its existence. It has to build up a structure that grows with every day of life and also to prepare a reserve of force for the future. A large proportion of the ill health that women especially suffer from in later years is due to inappropriate and insufficient feeding in early life. This does not necessarily imply that they have suffered from lack of food, but from want of the kind required to nourish and supply their particular constitution. There is such a thing as starving in the midst of plenty, an indirect and systematic starvation.

This is particularly true with regard to our school children. Breakfast for them comes before they have fairly shaken off sleep. It is hurried through under a perpetual fear of losing a train or of being late. And the dinner hour comes after a very long fast, perhaps even after another journey. In between biscuits and cake have been consumed to still the cravings of hunger, and when at last the time for a substantial and savory meal has arrived the appetite for it is wanting, and the digestive powers are too exhausted to give the necessary amount of attention to their work. In spite of physical training and culture it is impossible that under such conditions we can turn out robust men and women.

Basque Funeral Customs.

Among the Basques funeral festivities were kept up not only after the funeral, but also for eight days more, and on New Year's day, when they were repeated. In their case this was a purely religious ceremonial observance, even if it originated in pagan days. For religion has entered into and still pervades the funeral rites of the Basques to a degree now hardly conceivable. The deceased who was the head of the family, probably belonging to the third religious order, was usually buried in the appropriate dress of the order. The funeral was presided over by the serore, who was a sort of nun. This probably, as O'Shea says, came down from the time when women held high ecclesiastical positions among the Basques.

The very feasts were relics of days when an offering of meat, bread and wine was wont to be taken into the church or churchyard not only at the funeral, but every day for two years afterward, for the supposed benefit of the deceased, but really for that of the clergy.

Up to 1706 in Guipuzcoa on the occasion of a funeral an ox was taken to the church door and then killed and subsequently eaten, a survival, of course, of pagan sacrifices in primitive times. In whatever way the habit of taking the deceased to the church on an open bier arose, there can be no question that the fire lighted at the nearest crossroads and the obligatory pater and l'intention du defunt are of deeply religious origin and both in deed and in truth appeal to each neighbor to pray for the soul of a departed brother.—Gentleman's Magazine.

A Life and Death Fight.

Mr. W. A. Hines, of Manchester, Ia., writing of his almost miraculous escape from death, says: "Exposure after measles induced serious lung trouble, which ended in consuption. I had frequent hemorrhages and coughed night and day. All my doctors said I must soon die. Then I began to use Dr. King's New Discovery for Consumption, which completely cured me. I would not be without it even if it cost $5.00 a bottle. Hundreds have used it on my recommendation and all say it never fails to cure Throat, Chest and Lung troubles." Regular size 50c and $1.00. Keep Your Nerves Sound

Nature Will Do the Rest

USE NO DRUGS

Don't Drug Your Stomach When Natural Forces Containing the Essential Elements of Robust Health and Vigorous Strength May be Had and Used with Absolute Safety and Wonderful Results.

Every organ—every muscle in the human system is entirely dependent upon *sound nerves* for *strength* and action. The nerve centres will keep the nerves sound only so long as the ELECTRO-NERVE FORCE is not wasted. The nerve centre in man is a Natural Storage Battery and the nerves are like so many electric wires—that carry the ELECTRO-NERVE FORCE to the different organs and muscles throughout the body. When through excess or overwork, worry or indiscretion, the Electro-Nerve Force is wasted, the nerve centres are exhausted and the vital organs and muscles become unable to perform their natural functions. Thus in the stomach the digestive organs—not having the necessary force to perform the function of Digestion, dyspepsia develops. The Liver becomes torpid from the same cause and the Kidneys and Bladder develop what is known as kidney trouble and bladder trouble from sheer lack of Electro-Nerve Force wherewith to perform their allotted work.

ELECTRIC HERCULEX

will fill the nerve centres with ELECTRO-NERVE FORCE in a most convenient, safe and natural manner—without any compromise to the stomach (as with drugs) and without any loss of time.

A Man with Sound Nerves

will never become Impotent, never suffer with Nervous Debility, Varicocele, Drains, Losses, Prostatitis, Constipation, Pain in the Back, etc.

Don't waste your time and money on worthless drugs and imitation electric appliances when you can get a real model Electric Herculex and in a pleasant and absolutely harmless manner, treat yourself at home, while you sleep or rest. One night's use will give you encouragement and the improvement will be steady until a complete cure is effected.

IF YOU WILL DO YOUR PART, "ELECTRIC HERCULEX" will remove all symptoms of weakness.

Send for my instructive "Book of Nature" free by mail sealed. Don't judge without knowing just what Herculex IS doing: my book tells you all very plainly and thoroughly. 5,000 cures last year. Write to-day and learn the true road to permanent Health and Strength. All advice free.

THE LATEST AS TO NERVES AND STRENGTH

It is not muscle so much as the nerves back of muscle which show one's strength and power of endurance. And the study with able physicians of to-day is how to keep the nerves in perfect health and fitted for the strain of everyday living. Headache of every type, nerve weakness, dyspepsia, sleeplessness, languor, restlessness, nervous dyspepsia, muscular weakness, brain weariness, poor circulation,—a thousand different unpleasant feelings and symptoms are due to nerve waste and nerve weakness,—especially in women and children. But how can all this be prevented, one will ask? How can my broken-down constitution be repaired, and nerve strength and full, robust health be secured. Just two points to remember: Determine that you will grow strong in nerves and health, and decide to use at once that most famous nerve cure, COCELIN. It is delicious in taste, quick in action and makes the wearied nerves tingle with renewed strength, and every function the stronger and faculty the brighter by its use. Druggists sell it.

SUNDAY MORNING, JULY 14.

TOO QUICK FOR HANNA

His Divorced Wife Sails for England With Her Three Children to Escape Service of Writ

By Telegraph to the Morning Star.

NEW YORK, July 13.—Attorneys for Dan. R. Hanna, of Cleveland, a son of Senator Hanna, obtained from Justice McAdam in the Supreme Court to-day, a writ of habeas corpus, returnable Monday, commanding Mary Harrington Hanna to produce in court her three children. Mr. Hanna, in his petition, says that the children were restrained of their liberty by their mother on the pretence that she has a right to their custody, and that he, the father, has been illegally deprived of their charge. A detective was sent to the Hotel Savoy to serve the writ.

Mr. Hanna accompanied the detective to the Hotel Savoy. When he arrived there he was told that Mrs. Hanna had sailed with her children on the steamer Menominee, which cleared the bar bound for London at 10:15 this morning. The manager of the Hotel Savoy said Mrs. Hanna left the hotel between 7 and 8 o'clock this morning.

Later it was learned that state rooms on the Campania had been engaged for Mrs. Hanna. A reporter who went to the steamer found that the Baroness de Polland, a friend of Mrs. Hanna, was on board, but no information could be obtained as to Mrs Hanna. Mr. Hanna went to the Campania and entered into a consultation with the Baroness. At this time a state room engaged by Mrs. Hanna was locked and it was thought that Mrs. Hanna was inside. The door to the state room was guarded by one of the ship's crew, who would not permit any one to approach it.

Mr. Hanna was in consultation with the Baroness de Polland for more than an hour. He refused to be interviewed. After he had left the Baroness was asked if Mrs. Hanna was on the ship and replied; "If she is I don't know it." She was then asked if Mrs. Hanna had sailed on the Atlantic transport liner Menominee and replied: "If Mrs. Hanna has left America at this time she must have sailed on the Menominee."

A man who said he knew Mrs. Hanna by sight, said he saw her in a state room on the Campania with her three children. A detective corroborated this statement. Mrs. Hanna's baggage went on the Campania. The ship sailed shortly after 2 o'clock.

HOTEL BURNED.

No Lives Lost—The Damage Estimated at About $90,000.

By Telegraph to the Morning Star.

BUTTE, MONT., July 13.—At 2:40 this morning a still-alarm was turned in from the Butte hotel, a four story structure on Broadway. When the firemen reached the scene the building was enveloped in smoke, which appeared to pour from every open window. The firemen were unable to locate the blaze for some thirty minutes and the greatest confusion prevailed. A number of guests on the lower floors succeeding in groping their way down stairs in the smoke and escaping with nothing but their night clothes. Scores of others were rescued from the upper windows, where the panic stricken guests shrieked for succor and threatened to jump to the sidewalk below.

At 4 o'clock the fire was completely under control and the management state that to the best of their knowledge all the guests have been accounted for.

The interior of the hotel, which for many years has been the leading hostelry of Butte, is completely gutted, and Hugh Wilson, the lessee of the building, estimates his loss at $90,000. The hotel guests lost a quantity of personal effects.

LYNCHING PREVENTED.

Disappointed Mob Makes Attack Upon Inoffensive Negroes.

By Telegraph to the Morning Star.

KANSAS CITY, MO., July 13.—The mob which made a demonstration last night against the county jail, where Frank Holland and Joe Robertson, negroes, charged with an assault upon Miss Grace Davis, are confined, broke up at 3 o'clock this morning into disorderly groups which chased and assaulted dozens of negroes who had given no offence. At an early hour to-day gangs of men were still hanging about the north end of the town, talking of the Davis outrage and threatening the negroes. An attack on the jail, if made, would have been repulsed, the police say.

GEORGIA DAY.

Two Exhibits of Especial Note at the Pan-American Exposition.

By Telegraph to the Morning Star.

BUFFALO, N. Y., July 13.—Georgia Day at the Pan-American exposition opened warm and bright. Georgia has two exhibits of especial note; one in the agricultural building, where the entire range of products of the State is shown, every variety having been raised on one 25 acre farm. The other is one of the most comprehensive exhibits in the mine's building.

POLISH STUDENTS NOW ON TRIAL.

Charged With Belonging to Secret Political Societies at German Universities.

NO SENSATIONAL FEATURES.

American Telephone System to be Established in Berlin—Detective Sentenced to Penitentiary—Vessels to be Subjected to Examination.

By Cable to the Morning Star.

BERLIN, July 13.—In the complete absence of other political interests this week, the great trial of the thirteen Polish students, charged with belonging to secret political societies at various German universities, organized to promote the national apirations of Poland, attracts much attention. The examination of the accused students has not, up to the present time, developed any sensational features. They all deny the charges of participation, knowingly, in illegal societies. The most sensational feature of this trial, so far, has been the throwing up of their briefs by the leading lawyers for the defence, protesting against the rigid limitations prescribed for them by the court. In connection with the Posen trial, the German newspapers print information concerning the Polish national fund at Rapperschwyl, Switzerland, which was collected chiefly among American-Poles. This fund now amounts to about $46,000, and continues to grow rapidly. The newspapers, referring to the matter, say:

"The purpose of this fund, as stated by the Polish managing committee is that it be used at a given moment, with all its power, in support of political action."

The official publication of those who have in hand the collection of this fund says the only institution openly working for the independence of Poland is "The National Fund."

Other developments of the past week indicate further Polish activity. Besides the decision of the German authorities to prosecute sixty Polish students at Thorn, in West Prussia, charged also with being connected with Polish political organizations, the Polish voters in the By elections at Duisburg, on the Rhine, refused to support the centrist candidate until a pledge were given to support the idea of holding Polish religious services every Sunday in the Catholic church.

The German customs' officials experimented for a week with the American automatic telephone system in Berlin, and have decided permanently to establish this system.

Detective Schiller was sentenced today at Konitz to two and one-half years in the penitentiary, having been found guilty of inducing witnesses to commit perjury in the case against Moritz Levy in September, 1900, in connection with the case of the boy who was killed at Konitz. Schiller fostered the belief that he had fallen a victim to the Jewish rites. Owing to the existence of the bubonic plague at Constantinople the quarantine officer at Bremerhaven has announced that all vessels from the Bosphorus, the sea of Marmora and ports of the Black and Ægean seas, will be subjected to sanitary examination.

STRIKE ENDED.

Employes of the Reading Iron Company Will Return to Work Monday at Higher Wages.

By Telegraph to the Morning Star.

READING, PA., July 13.—The strike of the 2,700 employes of the Reading Iron Company, including the tube works, the Ninth street and the Oley street mills and the sheet mill, is ended, after having lasted ten weeks, since May 6th. The men met this afternoon when the proposition of Vice President Spink was submitted to them and it was unanimously decided to accept the offer. The men cheered as the motion was passed ending the long strike and giving them higher wages. They will now return to work next week, as soon as the various departments can be put into readiness to resume operations. The resumption of work at the plants in this city will enable the Blandon and Seyfert rolling mills to resume. They were compelled to stop work shortly after the strike began, as they are dependent on the Reading Iron Works for their product.

The new scale of wages will be the same as that paid by the company in August, 1899, which was the boom period of iron prices. The men will go back to work on Monday in all departments which are able to resume. The union is not recognized, the company reserving the right to employ any man, whether union or non-union, but all of the strikers will be taken back and none will be discriminated against.

SCHOONER MABEL JORDAN

Towed Into Port of Norfolk, Va., in a Disabled Condition.

By Telegraph to the Morning Star.

NORFOLK, VA., July 13.—The big four-masted schooner Mabel Jordan, Captain Clark, from Turk's Island, on July 4th, for Philadelphia, with a load of salt, was towed into port to day leaking, with pumps disabled and masts bare of canvass.

The Jordan was caught just off Hatteras Wednesday night in a terrific gale, which was central at the dreaded cape, and Capt. Clark says that the wind blew fully fifty-five miles an hour, with a heavy sea.

The salt cargo clogged the pumps, the wind stripped the masts and the schooner was left at the mercy of the waves and wind until the storm abated. Her master states that he fears for some craft not so staunch as the Jordan, which were closer in shore when the storm came up. So far no disasters have been reported.

IMPORTS AND EXPORTS.

Statement Issued by the Treasury Bureau of Statistics—Large Gains in Both.

By Telegraph to the Morning Star.

WASHINGTON, July 13.—The statement of the imports and exports of the United States for the fiscal year ended June 30th, 1901, was completed by the treasury bureau of statistics to day. It shows that the total imports of the year were $822,756,833, total exports $1,487, 656,544, and the excess of exports over imports $664,900,011. The imports are $37,184,651 below those of last year, and the exports are $93,173,462 above those of last year. The excess of exports over imports exceeds that of last year by $120,358,113, and is $49,467,335 greater than the highest record ever before made, that of 1898. Under the new relations with Hawaii and Porto Rico, the commerce with those islands is no longer included in the regular statement of foreign commerce of the United States. Had they been so included, as has been the case in former years, the total exports would have exceeded $1,500,000,000, as the exports to those islands during the year have aggregated about $25,000,000,000. During the year ended June 30th, 1901, the exports of domestic products were as follows:

Breadstuffs $267,487,239, increase as compared with the year 1900, of $14,033,000; cattle and hogs $36,537,062, increase $7,500,000; provisions $179,875,250; increase $11,000,000; cotton $313,283,578, increase $71,500,000; mineral oils $69,905,689, decrease $4,000,000.

The annual statement of the imports and exports of the United States for the year ended June 30th, 1901, shows as follows:

Merchandise, imports $822,756,833, of which $339,487,153 was free of duty, increase on dutiable merchandise $565,062: merchandise, exports $1,460,352,266, increase $89,588,695; gold imports $64,571,852 increase $19,298,668; gold exports $53,229,520, increase $4,962,761; silver imports $36,384,041, increase $1,127,739; silver exports $54,285,180, decrease $2,437,095.

PRIZE MONEY AWARDED.

Sum Arising From Capture of the British Steamer Adula During Spanish-American War to be Distributed.

By Telegraph to the Morning Star.

MOUNT AIRY, GA., July 13.—Judge Speer, of the U. S. Circuit Court, today handed down his decree, distributing the prize money arising from the capture of the British steamship Adula during the Spanish war. Judge Speer considerably reduced the allowance for the officers of the court made by the master to whom the question had been referred and has ordered that the sum of $40,000 paid into the treasury of the United States be distributed as prize money. The Adula was owned by the Atlas Steamship Company and was chartered to a Spaniard, Don Jose Solis. The capture was made by the Marblehead, Commander McCalla, while the Adula was attempting to run the blockade at Guantanamo bay during the Spanish war. the amount realized on the stipulation given by the owners for the Adula was $50,000 and this sum, less the costs and expense of keeping the ship, expense of litigation, insurance, losses from salvage and the like, was distributed, one-half to the United States and one-half to the officers and enlisted men of the navy entitled to the prize money.

The Adula was the only neutral ship condemned during the war and the decision of Judge Speer was twice reviewed by the Supreme Court and once by the President and in all respects affirmed. The case has been in court three years. It is the first prize case tried in Georgia since the war of 1812.

ST. JOSEPH, MO., July 13.—State Senator A. W. Brewster to day received a draft for $250, sent to him by "Pat" Crowe from Johannesburg, South Africa, to pay an attorney fee Crowe had been owing a number of years.

Crowe's name has been connected by allegation with the kidnapping in Omaha, of the young son of Edward Cudahy, the packer, who paid a ransom of $25,000 in gold to recover his boy. Several years ago Crowe was under arrest in St. Joseph on the charge of train robbery. He employed Brewster to defend him. The charge was finally dismissed, as the case was not a strong one.

By Telegraph to the Morning Star.

INDIANAPOLIS, Ind., July 13.—Captain D. F. Allen, of Frankfort, commanding Company I, Thirty eighth U. S. Volunteers, which returned home a few days ago, said yester-day that he believes the United States eventually will have to withdraw from the Philippines. The insurrection is not broken, he declares. If the Filipinos could shoot straight, it would be impossible for the United States troops to withstand their attacks. Captain Allen believes Aguinaldo will take the first opportunity to make his escape and get into the mountains, and that he is just as much an insurgent as ever.

ASKED TO RESIGN.

John A. Hinsey, Imperial Prince of the Knights of Khorassan.

By Telegraph to the Morning Star.

CHICAGO, July 13.—John A. Hinsey, who, as a result of an investigation of the affairs of the endowment rank of the Knights of Pythias, recently was permitted to resign from the board of control, was again under fire here today. Officers of the Knights of Khorassen, the pleasure-seeking branch of the order, of which Hinsey was imperial prince, held a secret session at which it was decided to ask him to resign. It was also decided to call for an examination of the books.

Although Hinsey was a prime mover in founding this branch of the Knights of Pythias, he was not allowed to attend the meeting to-day.

FAILED TO REACH AN AGREEMENT.

Largest Strike in the History of the Country is Likely to be Precipitated.

STATEMENTS BY BOTH SIDES.

Strike in All the Tin Plate, Steel Hoop and Sheet Steel Mills to Commence on Monday, the 15th of July.

By Telegraph to the Morning Star.

PITTSBURG, July 13.—After a three days' session the conference between representatives of the American Sheet Steel, American Steel Hoop and American Tin Plate Company, subsidiary companies of the United States steel corporation, and the general executive board of the Amalgamated Association of Iron, Steel and Tin Workers, adjourned finally at six o'clock this evening without reaching an agreement. In less than an hour later President Shaffer, of the Amalgamated Association had wired the following order to all the amalgamated lodges in the tin plate, steel hoop and sheet steel mills of the country:

"Notify your men that the mill is on a strike and will not work on Monday, July 15th."

For the present, Secretary Shaffer says that only the three companies named will be affected, but later all the union men in the Federal Steel Company, National Steel Company and the National Tube Company may be called out if it shall be found necessary to resort to extreme measures to win the fight. At the start, it is claimed 45,000 skilled workmen, 30,000 unskilled men, and indirectly, many thousands more will be affected.

Statement by Officials.

After the adjournment of the conference the following statement was given out by the officials of the companies interested:

"The conferences between the Amalgamated Association and sheet, hoop and tin plate companies failed to come to an agreement because the Amalgamated Associations did not recede from its original position. The manufacturers did not refuse their rights to organize, but have got many men in the mills not in the Amalgamated Association who do not wish to become association men and claim they must respect these men in their wishes, as well as those who are members of the association. In order to effect a compromise, the manufacturers offered to sign for several mills, which have always in the past been out of the association. No compromise was offered by the Amalgamated Association. The American Tin Plate Company have only one non-union mill. They required the privilege to make a special scale for this mill and sign the same. This was refused and the company was given to understand that men in all the tin mills would be called out, even though the scale had been signed for all the tin mills. The privilege requested above would settle all differences between the tin plate company and the Amalgamated Association."

None of the officials of the manufacturing companies would consent to an interview as to the probable result of the strike. They would not estimate the number of men whom they expected to go out on the order of President Shaffer, and said that the facts in the statement submitted was all that they had to say.

So soon as the workers left the hotel and repaired to the headquarters of the Amalgamated Association a statement was prepared for the

Association Side

of the case and late this evening, President Shaffer made this public as follows:

"On Friday afternoon the manufacturers made their first proposition for a settlement of this strike in which they said we agree to unionize the old Meadow mill in Scottdale and in Saltsburg, by leaving it to the opinion of the men employed where such opinion is properly obtained. This proposition was generally discussed and this morning before the conference adjourned for lunch, we the general board of the Amalgamated Association submitted the following with the operation of the mills be longing to or operated by the American Sheet Steel Company, the American Steel Hoop Company or the American Tin Plate Company, during the scale year."

This agreement abrogates all contracts signed by the men of these companies, in which they agree not to join or be connected with the Amalgamated Association or any other labor organization.

"We hereby repeat our request that our scale be signed for all mills owned and controlled by the American Sheet Steel, the American Steel Hoop and the American Tin Plate Companies, and believe that this should be conceded because it is, in our opinion, reasonable and just. We agree that if our scales are signed as stated above, to classify the Monessen plant of the American Tin Plate Company as a special mill and arrange a scale in accordance therewith. Also, that there shall be a reconstruction of the scale for the mills working hoop and cotton ties exclusively; and we also agree that if our work of organizing mills outside of the possessions of the above companies should cause the shutting down of plants or the calling out of men, there shall be no interference

In giving general details of the effect of the strike that is now ordered President Schaffer said that the first order only went to the mills of the three companies that have been carrying on negotiations. It was thought best that this should be the case. The order for the others that are to be called out is to follow in a circular letter sent to every lodge of the Amalgamated Association in the country where there are mills of the United States steel corporation in operation. It would include the mills of the Federal Steel Company, the mills of the National Steel Company, the National Tube Company and wherever there were organized men employed in non-union plants of the first mentioned companies. He could not give the total number of men that would be idle, but estimated them from the reports from the other general officers of the organization at least 150,000 directly. It was his intention to have the strike general as possible at the earliest possible moment so as to force a settlement of the dispute the quickest.

President Schaffer says a week will be required to reach all the men that are to be ordered out and it will only be then that it would be possible to tell how effective the strike would be and how complete its effect on the business of the country.

The board of naval officers, headed by Rear Admiral Henry C. Taylor, which was charged with formulating plans for the new naval station at Olongapo, in Subig bay, P. I., and at Charleston, S. C., has completed its labors, and its report is now at the Navy Department.

North Carolina Will Take Care of Her Own Lynchings.

[*Special Star Telegram.*]

RALEIGH, N. C., July 13.—Governor Aycock to-day gave out a statement to the effect that hereafter when lynchings occur in this State he will offer rewards of $400 for each member of the lynching party. This statement was elicited by the reception of a notice from the International Council of the World that this society would offer $500 reward for the members of the recent lynching parties at Smithfield and LaGrange. The Governor says North Carolina will take care of her own lynchings, but that he is determined to break it up. He calls on the press and people to co operate in its suppression and declares those who commit crimes which give rise to lynchings shall receive speedy legal justice at the rope's end.

Wilmington Live Stock Co.

The undersigned having entered into a copartnership, styled as above, can be found at F. T. Mills' old stand, Second and Princess streets, where they will conduct the Live Stock business on a larger scale and keep constantly on hand a first class stock of Buggies, Harness and Horse Goods. We will sell for less money because we buy in CAR LOAD LOTS and PAY CASH and carry the biggest stock of Horses, Mules, Buggies and Harness to be found in Wilmington. Just received, car load of Buggies, car load of Horses.

Remember, we save you money. See us before you buy.
